

ABOUT BENZ TOOLS & SERVICES

BENZ manufactures German-engineered tooling systems that are tailored to customer requirements then sold and serviced in America and Canada.

PRODUCTS. Advanced design and manufacturing techniques make BENZ tooling systems more productive and profitable, with innovative products that are faster, longer lasting and easier to use.

SERVICE. BENZ Inc. backs its unique, proprietary tooling systems with quick and accurate service and repairs. We provide our US and Canadian customers with quick, friendly assistance from factory trained technicians, with one-year product warranties, and replacement tooling made from original parts - all at a cost competitive with that of many third-party repair shops.

Our service department repairs:
