Composites machining

BENZ i.tag DIGITAL NAMEPLATE

That black dot with NFC logo
on your tool catches your eye
and you wonder what it is?

You have discovered **BENZ
i.tag**, the **Digital Nameplate!**
Simply scan the dot (tag)
with your smartphone and

access your product data anytime and anywhere.

With BENZ i.tag your tool always carries
all important information with it!

BENEFITS

- + Time saving: Technical data & documents always at hand and available
- + Quick and easy handling via smartphone, no special software required
- + Contact the service team directly via online form, direct phone call or e-mail
- + Worldwide availability, link can be sent
- + Save storage and logistics costs (no more paper documents)
- + You work sustainably and protect the environment by saving paper
- + Your tool data is safely managed: BENZ i.tag can be read out, but does not collect or send any data itself

ADDITIONAL FUNCTIONS

Alternatively you will find here
the description in paper form

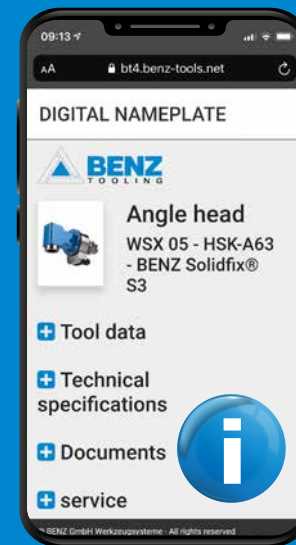

1

Find the NFC tag

2

Scan the NFC tag

3

Get access to
information

4

Use the
Information

PREPARE SCAN

Activate on your smartphone:

NFC

Internet connection
via WLAN or mobile data

Installed on your smartphone:

PDF Viewer App

SCAN CORRECTLY

The NFC sensor of your
smartphone is usually located
around the camera or in the
center.

Hold this area to the NFC tag
of the tool.

Once the scan is successful,
the data and documents **auto-
matically open in the browser**
