

PROPER SHIPMENT OF BENZ PRODUCTS

1

Delivery condition: The unit is supplied in a robust Tanos Systainer. The unit and accessories are securely attached to a cardboard with clear protective film. Additionally, two tensioning straps are supplied with the unit. The corresponding assembly instructions for the unit are supplied inside the Systainer.

2

Removing the clear protective film: Once the unit and the assembly instructions have been taken out of the Systainer, the clear protective film that protects and secures the unit can be carefully cut with a cutting tool, such as a utility knife and removed from the cardboard.

3

Unpackaged scope of delivery: The photo shows the complete scope of delivery of a product, as well as the packaging materials used for safe transportation ex works. All individual parts and accessories that are supplied with the unit are shown.

4

Storing materials: Store the yellow protective film, the two straps and the carton in the Tanos Systainer so that when the unit is returned, all the necessary materials are immediately available for proper packing. The clear protective film can be disposed of according to local regulations.

5

Packaging the unit: The unit must be wrapped in the yellow film for the return shipment. The packed unit must then be secured to the cardboard using the two tension straps to prevent it from slipping during transport.

6

Tanos Systainer: Carefully place the packed and secured unit into the Systainer using the handles on the cardboard. Twist the T-Loc screw cap to close the Systainer. This ensures complete protection during transport. The unit is now ready for shipment.

IMPROPER SHIPMENT

When returning the unit, make sure it is securely packed and fixed to avoid damaging it. No packaging or improper packaging will invalidate the warranty, so proper packaging is essential.

NOTE on Packaging: We reserve the right to dispose of the customer's packaging to ensure a safe return shipment. If you wish us to return your packaging, please arrange this with us in advance.
